

PART NUMBER: ATFM-12PLCS

ATFM-12PLCS is a high performance waterproof, long life, severe duty 12 inch fan used in cooling systems in extreme conditions; Used in Mining, Diggers, Drill and Transit Boss. Other uses are in the transit bus market, off road applications, power grid battery cooling, stationary power generators and roof mounted cooling systems.

SPECIFICATIONS

TYPE:	SPECIFICATION DESCRIPTION:
Airflow	1,700 CFM , 2900 M3/H
Overall Package Weight	4 kg
Sealing Rating	IP68
Fan Configuration	Push or Pull
Voltage	24 VDC
Current Draw	6 Amps @ 24 VDC
Dimension	330 mm x 330 mm

APPLICATIONS

- CAT & TEREX DIGGERS - SIGMA CONDENSER FAN
